

**Online
Cambridge Day**

Germany

29 November 2023

15.00 - 18.00 (CET)

**We would like to invite you to our
Online Cambridge Day Germany.**

**At this event we will share our knowledge and expertise with you as well as
providing you with practical teaching tips and ideas that can be
immediately applied to your lessons.**

**You will have the opportunity to e-meet other teachers and learn more
about our latest teaching materials.**

Organised in cooperation with our
authorised exam centres in Germany.

Programme

15.00 - 15.30 What can your students do with Cambridge English Qualifications? with John Mc Neill

Discover what we mean by recognition, how it can impact your institution and help open up global opportunities for your students. This session will focus on recognition in higher education, workplace and school sectors throughout Europe and beyond!

15.30 - 16.30 Creative Writing for Exam Success, personalisation and Fun - Workshop with Olha Madylus

Why do students need to be creative in their English lessons? This presentation explores the multiple reasons for including a focus on creativity in your English language classroom. We will focus on how creativity encourages a wider, richer use of language, activating in particular the vast amounts of vocabulary students have been introduced to. We will explore how students can be motivated by a personalised and freer use of language, not only being able to express their own thoughts and feelings, but also learning from each other.

In addition, we will consider how creativity can help students achieve better examination results by showcasing the language they know and impressing examiners.

16.30 - 17.00 Getting started with Cambridge One

Access to Cambridge One, our mobile-friendly platform, is available with the vast majority of our learning resources. After a short overview of what it offers we will take a close look at the exam practice tool – Test & Train and share some practical tips on how to use it with your learners.

17.00 - 18.00 Speaking Skills at B2 and beyond - Workshop with Mark Meredith

This session will refresh teachers' knowledge of the four parts of the test at the B2 First and C1 Advanced levels and raise awareness of the relevant speaking subskills for each part. We will explore classroom activities that help learners develop a range of skills that can be used in both exams. We will then look at a range of resources available from Cambridge University Press and Assessment to support teachers and their students.

Speakers

Olha Madylus

Olha has taught in the UK, Greece, Hong Kong and Venezuela. She is a freelance author, materials' designer, consultant and teacher trainer. She is based in London and as well as working with Cambridge does consultation, teacher training and teacher trainer training for organisations such as The British Council and Ministries of Education worldwide. Her main focus is on understanding and motivating learners. She is the author of Film, TV and Music, a photocopiable activities book for teenagers.

Mark Meredith

Mark is a Professional Learning and Development Trainer for Cambridge University Press and Assessment. Since arriving in Spain he has taught primary and secondary students as well as future university students on pre-sessional programs. He has also run professional development training sessions and courses with teachers from across Spain and Portugal as well as delivering local and international webinars. He holds a Trinity DipTESOL and an MA in TESOL from Lancaster University.

John Mc Neill

After completing a CELTA in 1999 John taught in four countries around the world before finally settling in Switzerland. During his teaching career he completed an MA in Education. Since 2008 he has worked for Cambridge University Press & Assessment in several business development roles. His current role is Institutional Partnership Development Manager.
